

How to find the right MBA

1

Follow your passion

“Do what you love, and you’ll never work another day in your life.” Even if the quote might sound a bit cheesy – it has some truth to it.

Are you passionate about clean energy? Then the MBA Renewables might be the right choice for you. The first distance learning MBA programme focusing on renewable energy and energy efficiency will enhance your career prospects.

2

Look at the big picture

Taking into account the objectives of an MBA programme will help you to make your decision.

The MBA Renewables will enable you to boost your career in the renewable energy sector – whether you’re new to it, experienced, or an entrepreneur.

3

Study from any location

When deciding on an MBA programme, you will also have to think about how and where to live.

The MBA Renewables is studied entirely online, so you choose where and when you study. Therefore the programme allows plenty of flexibility.

4

Make new contacts

An MBA should connect you to a network of valuable contacts around the world.

The MBA Renewables students and alumni are professionals who are located all over the world. Get in touch with them via our LinkedIn group and learn how they benefited from the programme.

5

Ask questions

To make sure you find the perfect programme, you will have to do a lot of research and compare different study programmes.

The MBA Renewables team is happy to answer your questions. Please don’t hesitate to contact us via phone or email or visit our website for a start.

6

Check the requirements

Each MBA has slightly different admission requirements.

For acceptance to the MBA Renewables you have to show a first university degree, very good English skills and professional experience after studies of at least 1-2 years.

7

Keep deadlines in mind

It’s important to hand in the necessary documents on time in order to be accepted for a study programme.

The MBA Renewables programme starts annually in October. Therefore, you have to hand in your application documents by 1 September at the latest.
